

DUCHESNE-STRAWBERRY RIVERS DISTRIBUTION SYSTEM

** 1971 ASSESSMENT **

\$ 8,750.00

BASIS OF ASSESSMENT:

The 1971 Annual Water Assessment is based upon the Commissioner's Annual Report of Water delivered to each user during the year of 1970. This is in accordance with the minutes of the Annual Water Users meeting of March 12, 1969.

CALCULATION OF ASSESSMENT:

The commissioner's 1970 Report states that 270,203 acre-feet of water was diverted by the water users during the year of 1970. The 1971 assessment in the amount of \$ 8,750.00 is divided by 270,203 acre-feet which equals \$ 0.0323830602, which is the cost of one pro-rata acre-foot of water. This amount multiplied times the number of acre-feet of water reported as used during 1970 equals his or her pro-rated share of the 1971 Assessment.

PROOF:

270,203 ac/ft times \$ 0.0323830602 = \$ 8,750.00
